# ABOUT FPD

Fattoria Pugliese Diffusa APS was established in 2009 and, since then, it has been working to promote and stimulate the development of the rural areas of the Puglia Region, particularly of South Salento. FPD focuses its attention on the creation of learning opportunities in EU for youth and adults and on the existing and new tools for boosting participatory democracy at all levels.

Since January 2020, FPD is in charge of two properties:

1

EurHope - a building located in Taurisano, confiscated from the local mafia and used as an educational/information center for minors, young people and adults at risk of social exclusion;

2

Casa Turrita - historic building located in Presicce, used as a social and community space for promoting social inclusion of vulnerable groups through social gardening, music therapy, summer camps, exhibitions, concerts, shows, festivals.

TAURISANO

Taurisano is a town located in the Lecce county, in the Apuglia region. It is the place of birth of the philosopher Giulio Cesare Vanini. It has around 12.000 inhabitants and is a place of transgenerational and cultural sharing, being open to foreigners.

Salento is a sub-region that extends over the southern part of Puglia. It is washed by the wonderful Ionian and Adriatic Seas.

Taurisano is only 10/12 km away from the sandy beaches of Ugento and about 20 km from the last town this land: Santa Maria di Leuca.
